Ordering and Provisioning

For more information pertaining to the GIT professional labor (AGRC) contact Jeannie Watanabe, 801-538-9543, jwatanabe@utah.gov ..

DTS Responsibilities

The AGRC will provide GIT Professional staff to work with agencies to develop the scope of work, define products or deliverables, and develop and manage project schedules and budget. AGRC will provide the appropriate development environment as needed.

Agency Responsibilities

The agency's responsibilities would be to participate with the AGRC on development of a work plan for services, deliverables, and schedule as well as provide subject matter expertise as needed, enabling the AGRC staff to work efficiently and effectively.

Service Levels and Metrics

GIT Professional Services are available daily 8:00 to 5:00, or by special arrangements made with the AGRC. Services delivery will meet schedules as developed jointly by the agency and AGRC and within agreed upon budget. Ordering agency is surveyed upon completion of project to ensure overall satisfaction.
